

The image shows a PyCharm terminal window with a dark theme. The terminal displays the command to run a Python script using the virtual environment's interpreter, followed by the output 'hello world' and a confirmation that the process finished successfully. A notification bubble on the right suggests adding project settings to Git. The status bar at the bottom shows the current file, line number, and encoding.

```
C:\Users\killy\PycharmProjects\Hello.py\.venv\Scripts\python.exe C:\Users\killy\PycharmProjects\Hello.py\hello.py
hello world

Process finished with exit code 0
```

IDE project settings can be added to Git
